

35_Chart

35_Chart

1. Copy start and finish works dates data from MS Project to Excel.

2. Copy Excel data to the card

3. Set up the relationship between the table columns with the option the card offers to select. For example, column "Number in structure" - WBS, "Task Name" - Job name.

4. To customize the slide title, you need to select the top line of the chart and select the scale: by days, weeks, months, or quarters. Then close the "Preview" and save.

Ex.: "Preview" button shows the entire chart for the whole period

You can customize chart display:

- 1.
by day
 - 2.
by week
 - 3.
by month
 - 4.
by quarter
